Contemporary, wearable and cool. Style it with a puffer vest or combine it with a blouse layered underneath a hoodie and a winter coat.

“  
The crew neck pullover is a perfect companion for the fall/winter season because not only will it keep you warm and cozy when it's rainy and grey but also its bright royal color will put you instantly in a good mood.  
So no matter which combination you choose, your outfit will be an eyecatcher.
